Dangerous conditions, stay out of the water.

YELLOW FLAG

Rough surf or likely currents.

GREEN FLAG

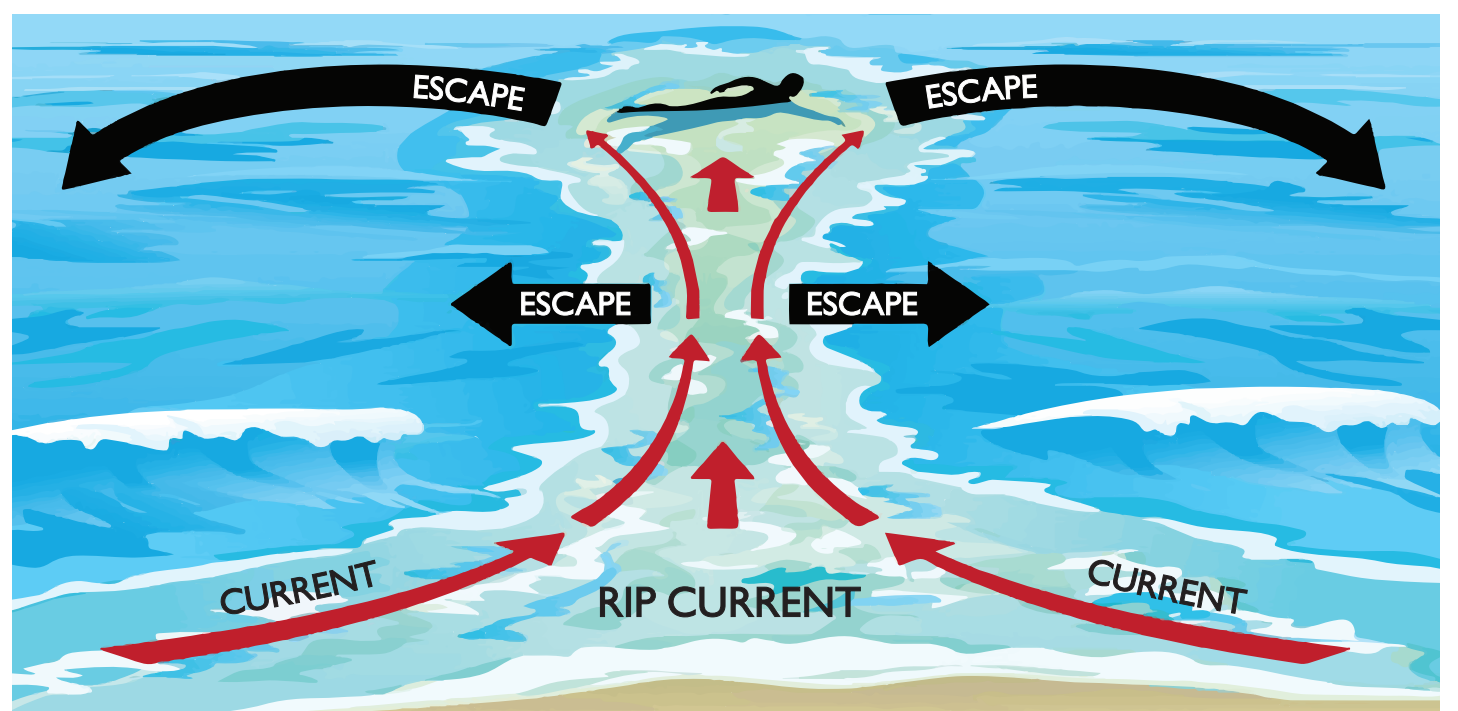

Calm conditions, swim with normal care.

RIP CURRENTS KNOW YOUR OPTIONS

Rip currents are powerful currents of water moving away from shore. They can sweep even the strongest swimmer away from shore.

IF CAUGHT IN A RIP CURRENT

- Relax, rip currents don't pull you under.
- Don't swim against the current.
- Swim out of the current, then to shore.
- If you can't escape, float or tread water.
- If you need help, yell or wave for assistance.

FOR YOUR SAFETY

- Know how to swim.
- Never swim alone.
- If in doubt, don't go out.
- No lifeguard on duty.
